Professional Summary

Full Stack Software Engineer with hands-on experience in Java, Spring Boot, and MERN Stack. Strong foundation in building scalable web applications and RESTful backend architectures. Actively exploring AI Agents and chatbot development, combining full-stack engineering with intelligent automation.

Work Experience

Java Full Stack Developer Intern | Amdox Technologies - Bengaluru (remote) Dec 2025 - Present

- Developed and maintained web applications using Java, Spring Boot, and REST APIs.
- Worked on task management modules including task assignment and prioritization, deadline tracking, and notifications.
- Implemented Spring Security for authentication and role-based authorization.
- Integrated React.js frontend with backend APIs.
- Used Git/GitHub for version control and collaborative development.

Software Engineer Trainee | Prominent Pixel - Rajkot, Gujarat Nov 2025 – Present

- Underwent structured training in MERN Stack.
- Gained hands-on exposure to Express MVC architecture and backend application flow.
- Assisted senior developers in debugging, testing, and code review activities.
- Learned and practiced Git/GitHub for version control and team collaboration.
- Familiarized with Agile development practices, daily stand-ups, and task tracking tools such as Jira.

Projects

1. MarketMatrix | E-commerce Website Feb 2025 – Mar 2025

- Developed an interactive and responsive e-commerce site.
- Allows users to browse, add products to the cart, purchase products, and cancel orders.
- Admin handles functionalities including adding categories, products, and managing orders.
- Technologies used: Spring Boot MVC, Spring Security, React.js, MySQL.
- GitHub: <https://github.com/yash-khakhar-08/E-Commerce-Project-in-React-JS-using-REST-API.git>

2. MarketMatrix Chatbot | AI Chatbot Integration Nov 2025 – Dec 2025

- Developed an intelligent chatbot integrated with the MarketMatrix e-commerce system using existing APIs.
- Allows users to ask product-related queries such as product details, pricing, availability, and order status.
- Enables users to retrieve personal information like order history and profile details through secure API calls.
- Seamlessly communicates with the backend via REST APIs.
- Technologies used: Python, React.js, LangGraph, Claude, REST API.

Skills

Programming Languages: Java (Core, Advanced - JDBC, Servlet, JSP, Hibernate), Python

Backend Frameworks: Spring Boot (MVC), Spring Security, Node.js, Express.js

Frontend Technologies: HTML, CSS, Bootstrap, AJAX, React.js, Typescript

Databases: MySQL, PostgreSQL, MongoDB

AI Frameworks: LangGraph, LangChain, n8n

Tools & Platforms: Git, GitHub, Jira

Education

Master of Computer Application Marwadi University <ul style="list-style-type: none">CGPA: 8.43	2024-2026
Bachelor of Computer Application Christ College <ul style="list-style-type: none">CGPA: 9.3	2021-2024
Higher Secondary Dholakiya School <ul style="list-style-type: none">Percentage: 81.14	2020-2021
Matriculation Modi School <ul style="list-style-type: none">Percentage: 78.5	2018-2019

Certifications

Build an App with RAG <ul style="list-style-type: none">Certification on building applications using Retrieval-Augmented Generation (RAG).	Nov 2025
Build a Chatbot Using LangChain <ul style="list-style-type: none">Certification on creating chatbots with LangChain framework.	Nov 2025
Agile Project Management <ul style="list-style-type: none">Certification in Agile methodologies and project management practices.	Dec 2025
n8n Course <ul style="list-style-type: none">Certification on building no code AI Agents and workflow automation using n8n.	Dec 2025

Awards Honors

Poster Presentation 13th National Level Symposium <ul style="list-style-type: none">Runner-Up in Poster Presentation	Feb 2023
START-UP and IT Quiz Saurashtra University Event <ul style="list-style-type: none">Runner-Up in START-UP and IT Quiz	Feb 2023
Poster Presentation 3rd National IT Fest – TechArena <ul style="list-style-type: none">Runner-Up in Poster Presentation	Feb 2023
